The Fort Phil. Kearney Massacre.

[From the Montana Post, March 16th.]

By a letter received by Mr. A. M. Holman, of this city, from Mr. Thomas M. Mallory, dated at the above Fort, December 20th, 1866, we are enabled to lay before our readers the following particulars of the horrible massacre which took place near there, together with other facts relative to that locality. The letter says: "Fort Phil. Kerney is located on Piney Creek, two hundred and fifty miles west of Fort Laramie, on the Bozeman road; it is sixty five miles from Fort Reno, on Powder river, and ninety-five miles from Fort Smith, which is west of us on the Big Horn." At the time of writing the letter there were about four hundred and fifty soldiers—cavalry and infantry together—with some one hundred and fifty citizens in the Quartermaster's employ; and it was thought that the garrison was sufficiently numerous to repel any attack from any force the Indians might bring against it. On the 21st inst. one of the most horrible massacres known in the history of our western country took place within twelve miles of this locality.

All who have traveled over this road will remember that about four miles west of Piney is a high divide, separating Piney creek from the waters running into Goose creek. The Indians had been showing themselves along this ridge nearly every day for the last three weeks, some of the most daring venturing within a few hundred yards of the fort. They had once been driven off and followed up by about 75 cavalrymen, two weeks before, and in the fight one Lieutenant and a Sergeant were killed and two soldiers wounded. On the morning of the day in question more Indians than usual—after making a feint attack upon the wood train, which, by the way, was nothing unusual—threw themselves in sight, approached nearer the fort, and seemed more anxious to have a fight. Colonel Fetterman, with a command of 79 men, started out to drive them off, or, as the soldiers said who volunteered, "to have some fun," under orders from the Colonel recommending the detachment not to go beyond the ridge out of sight of the fort. Contrary to these orders the command crossed the ridge, and soon the regular discharge of small arms was heard in that direction. The firing was kept up for about an hour—then all was still. About this time the Colonel's aids reached the top of the hill, but nothing of the party was seen; nothing but Indians were in sight, and they just finishing their hellish work of scalping and mutilating the bodies of their victims. The sad news soon reached the fort, and when reinforcements arrived upon the battle ground, all was over. Not one of the eighty-one men who went was left alive. The Indians, to the supposed number of three thousand, were still in sight, but showed no sign of fight. How many of them were killed, there is no means of knowing, for they always pack their dead away with them. * * "The sad spectacle which they presented when brought in was soul-sickening in the extreme, and causes a shudder of horror to creep over us whenever our thoughts revert to it. They had been stripped of every particle of clothing, and scalped. Some had their ears cut off; some had their skulls broke in; while others had powder poured into their ears, and their heads blown off, and otherwise horribly mutilated. Some had from forty to sixty arrows sticking into them, besides being shot several times with ball. The loss of this party makes the total number of white men killed in the vicinity of this fort, since its establishment in August last, one hundred and thirty-three. Some have been killed while hunting, chopping wood or traveling on the road. Only fifteen Indians are known to have been killed. This was on the 22d of September. Early in the morning, a party of ten Indians dashed into a herd of cattle within a few hundred yards of the fort, and drove off one hundred and twenty head. Captain Brown, with ten men, accompanied by fifteen miners of the Standifer party, started in pursuit. The Indians were soon overhauled, and a running fight was kept up for about three miles, when the herd was overtaken, and the Indians, numbering about three hundred, routed. None of our men were killed, and but one slightly wounded.

This is the only fight this year in which the Indians are known to have got the worst of it. There have been about five hundred head of horses, mules and cattle driven off from this post, about one hundred and fifty from Fort Smith, and about the same number from Fort Reno, since August last. Engaged in the late massacre, judging from the different kinds of arrows that were picked up, were the Sioux, Cheyennes, Arrapahoes, Crows and Blackfeet. From the last accounts received from the Big Horn, there has been no communication from there for over a month. A large band of Crows were camped in the vicinity of the Fort, and were supposed to be friendly. This they may be, so long as they can get rations; but that some of them took an active part in the recent fight there can be no doubt. In a similar way are the Sioux friendly. At Fort Laramie there is a large band camped in the vicinity, consisting of old bucks and squaws, who draw their regular rations from the Fort and buy powder from the sutler. They are said to be engaged in making arrows. That these are sent to the red devils, their brethren, who are continually lurking upon the road between Fort Reno and Smith, there can be no doubt." In conclusion, the writer states that the present state of affairs will exist until a sufficient number of troops are stationed in the different garrisons, and then—another treaty will be made; and unless all previous efforts to keep poor "Lo" are improved upon, we doubt not but that such will be the case. The writer also adds, that rumors were circulating in the Fort to the effect that Carrington had received advices from General Sherman to the effect that the latter was massing troops at various points, preparatory for an early movement in the spring, when a war of extermination was to commence. It is to be sincerely hoped that the latter portion of the rumor is true. The bloody and savagely mutilated remains of hundreds cry out for vengeance that will be sweeping and terrible in its course, as it will be lasting and terrible in its effects.

GENERAL WASHINGTON'S LAST VOTE.—The Father of his Country was conscientious in the discharge of every duty as a citizen, and never failed to vote. The last occasion of his doing so was in the Spring of 1799, in the town of Alexandria. He died on the 14th of December following. The Court House was then over the old market-house, and immediately fronting Gadby's tavern. The entrance into it was by a slight flight of crazy steps on the outside, and while the election was progressing—several thousand persons being assembled around the polls—Washington drove up in his old and well known family carriage. The crowd spontaneously gave way and made a lane for him to pass through as he approached the Court House steps. A gentleman who was standing at Gadby's door, saw eight or ten good looking men immediately spring forward and follow the General up the steps, in order to uphold and support him if necessary. According to the custom of the time, the five or six candidates were sitting on the bench, who rose in a body and bowed profoundly at the entrance of Washington. Very gracefully returning their salutation, the Register of the polls said: "Well, General, how do you vote? (It was then by *viva voce*.) He looked a moment at the candidates, and replied: "Gentlemen, I vote for measures, not for men," and having audibly pronounced his vote, he made another graceful bow and retired. He was loudly cheered by the outward crowd on returning to his carriage.

A. A. DENNY.—Philip Ritz writes as follows from Washington City to the Walla Walla *Statesman*, respecting A. A. Denny, late delegate in Congress from Washington Territory:

Mr. Denny has made us a most excellent delegate. By his quiet, unassuming, dignified manner, he has now the confidence and esteem of every member, and the heads of departments with whom he has had business. It has been universally remarked to me by members of Congress and of the different departments, that he has more influence than any other delegate in Congress. I have had occasion to go with him to the heads of the different departments, and have felt proud that we have a delegate who is so universally respected.

The London *Lancet* is in doubt what to call certain young ladies who recently passed an examination for admission to the society of Apothecaries. It suggests "apothe-caresses" as an appropriate title. The successful passage of their examination might be styled the apotho-o'-sis.

Margaret Tinne, the captain of a Dutch yacht which sails in the Mediterranean, is about twenty-seven years of age, attracts great attention. A young woman in Wheeling having been locked up to keep her away from her lover, managed in the night to let herself down from a three-story window, eluding the vigilance of her guardians, and joining him for whom she was pining, only to have the ungallant fellow to refuse to elope with her.

There is a dentist in New York who pulls so many teeth that the gold plugs extracted from them are worth five hundred dollars. He takes the teeth to his residence in Brooklyn and uses them to enrich his grape vines, they affording a large quantity of ammonia. The effect on the grapes has been to make them bring forth an abundance of fruit. They must be quite toothsome.

FROM MONTANA.

From a Helena paper of the 16th March we have the following:

A BRILLIANT VISITOR.

The most brilliant meteor we have any record of in Montana made its appearance on last Sabbath evening, about 7 o'clock. Two separate explosions threw off luminous particles before it disappeared over the mountain, and although some assert that a rushing sound could be heard, as also the explosions, the evidence is not well sustained. The body of the meteor appeared from here something larger than the sun, and was of that deep red color which the sun sometimes shows near the horizon, with brilliant scintillations of light. The flash lit up the heavens like a continuous flash of sheet lightning, and the streets were almost as light as day.

THE COLD SNAP.

The thermometer yesterday morning indicated 24° below zero, the preceding night having been the coldest of the season. Whisky was sold at two bits a chunk, the purchaser to furnish his own teeth. One individual who had more than he could well navigate under, pleaded that he had been exposed to the weather and "froze tight." He has heretofore been a notoriously "loose" character. He proposes to bask in the sunshine of some fair one's smiles, in hopes of thawing out.

WIND RIVER MOUNTAINS.

We had thought that the great stampede to that point last fall had discouraged prospecting in that region for some time. It appears, however, that a party are about to return there to prospect and mine, and a few particulars in regard to the country may be interesting. When the Standifer party was on the head of the Stinkingwater, a party of nine men started over to the head of Wind River to prospect, with instructions to rendezvous on Gray Bull Creek. This party prospected along the river and tributaries, getting four to five cents in the gravel, without touching bed-rock. Mr. Stein, the party giving us the information, is an old miner, and says the indications are as good as he wants, and that quartz veins are numerous. Specimens brought to the fort yielded largely. The country abounds in game, and is timbered about as Alder Gulch, near the head. Beautiful fertile valleys extend from the Big Horn canyon to the head. The party having "struck it rich," headed for the rendezvous on Gray Bull Creek, purposing to have the entire prospecting party return. They missed their way in the mountains, however, and became lost in the rough mountain regions of the Stinkingwater. Here they wandered for thirty-four days, having nothing to eat for twenty-two days but such game as they could shoot, meeting, however, no Indians except a few Bannocks and Snakes. In their endeavors to reach Fort Smith they crossed dizzy mountain cliffs, when it was necessary to strip their animals of their burden and pack it over on their own backs. A false step would have precipitated either down a rocky precipice two thousand feet. On the summit of this mountain snow lay in August ten or twelve feet deep. They finally reached Fort Smith, where they remained until a short time since. These diggings are about 100 miles southwest of the fort, and can be reached without difficulty by following up the river. The party who are about to return will, however, go down the western side of the range, pass Soda Springs, and cross from the Utah side. They will take provisions for six months, and apprehend no danger from the Indians. So every person has not centered their affections on Salmon River yet.

FROM NORTH IDAHO.

From the Lewiston *Journal* of the 5th inst. we have the following:

GOLD CREEK.

Several parties have recently come in from this camp. They report about three feet of snow in camp when they left about ten days since. The miners there seem confident of success this season. Some deep diggings have been discovered in the hills, which give much promise to the camp. They report the prospects obtained in these hills to be from four to six cents to the pan. If these hill prospects are extensive, they will warrant considerable outlay to bring water upon these hills. Quite a number contemplate a visit to these mines at an early period. Some will go out to see, whose mining interests are in the other camps east of us. They will have time to make the trip before they can well operate upon their own claims. The distance to Gold creek is about 45 miles from this place.

ELK CITY AND FLORENCE.

Expressman Fairchild, from Elk City, and expressman Hunt, from Florence and Warrens, arrived last evening.

Fairchild reports all business still locked up in the snow at Elk City. The snow had settled somewhat, but the water had not yet began to run in the ditches.

The snow was disappearing from Camas prairie, and had settled down to about two and a half feet, in depth on Craig's mountain.

Hunt reports the snow still deep in Warrens and Florence, though settled much since his previous trip. The weather on Salmon river was warm and pleasant. Work was resumed on the Liddle and Harpster tunnel on Monday last—also on the wire bridge at the mouth of Meadow Creek. He reports that mining has not been resumed to any considerable extent in Warrens, as the waters had not yet raised sufficiently.

THE ALABAMA.—A correspondent of the New York *Times* mentions on the authority of a London paper—no name given—a curious report of the Alabama claims of the United States, to the effect that the matter will be settled by Mr. Laird, the builder of the Alabama, taking upon himself the whole blame of the transaction, and paying the entire damages out of his own pocket! Mr. Laird, it is added, when the Government had determined to seize the Alabama, was secretly informed of the fact by a Government employee, who has since confessed his culpability, so that Mr. Laird might be forced to pay, which he will now do voluntarily, to save both the Government and himself from difficulty. This story needs confirmation; but if the Government is responsible to the United States, some one should be responsible to the Government. Mr. Laird is rich, no doubt, but probably not rich enough to foot the little bill run up by the Alabama.

DENVER.—The "Vigilantes" seem to make themselves very busy about Denver. The *Gazette* of that place, of the 23th ult., talks strongly of another "outrage" recently committed there. A young man was suspected of having abstracted $495 from a trunk. An officer was sent for and the young man was arrested and taken away. Presently the officer returned, saying that three professed Vigilantes had taken the prisoner, and intended to make him confess. A person present demurred at such an outrageous proceeding, but the officer would permit no one to leave the house. Meantime the Vigilantes took the young man to Cherry Creek and choked him with a rope till nearly insensible, but he still not confessing, he was gagged and taken to the United States jail, where he was kept until the next night, when he was set at liberty and told that, if he did not leave town immediately, they would cut his throat. A day or two afterwards, the most of the missing money was found in a pillow slip, filled with clothes for the wash.

SURVEYING IN IDAHO.—From the Boise *Statesman* we have the following:

Surveyor-General Cartee, with assistants, started on a tour of observation yesterday with a view to locating the base line and meridian for the public surveys. The late cold and stormy weather has delayed his doing this for several weeks. It is the General's intention to run a meridian that will if possible touch the Boise and Payette valleys and the Owyhee mines, so that those most important sections can be surveyed without delay. Other sections of the Territory will not be neglected, but the object is to commence the work at points where it can most rapidly be made available. We can assure the public that the public surveys of no Territory or State were ever in more competent or skillful hands.

The Idaho *Statesman* of the 4th inst. says:

Mr. Roberson, living in Lower Boise precinct, came in town yesterday, saying that the Indians have lately made another raid upon the stock in his neighborhood and drove them across Snake river. He also reports that some of the settlers in that precinct will leave their farms unless these depredations are stopped immediately.

HOW TO TAKE COLD.—As the thaw has commenced, the doctors are looking for an increase of business, and as every trade must live, we offer a few hints upon the readiest methods of gratifying the fraternity. Persons who are partial to the rheumatism should wear thin boots, and be very careful to keep them well soaked in snow water. A quick fever can be secured by leaving off overcoats. Neuralgia complaints are open to all who walk till they are heated, and then stop at the corner of a street and cool off by a genial chat with some good fellow. Coughs are free to all who will insist upon throwing open their coats in order to catch the gentle south breeze which prevails. The ladies are such thorough experts in this art that we need not offer them any suggestion, but by abandoning their cloaks and rubbers and resorting to their boots and shawls, they will reach a grand diet by a short cut.

The Daily Oregonian.

SATURDAY MORNING, APRIL 13, 1867.

Rates of Wages for Farm Labor.

Very full and valuable statistics have recently been published by the Agricultural Bureau, showin the rates of wages for farm labor throughout the United States. To show that these statistics possess the merit of accuracy, it will be sufficient to state that they are based on returns, in answer to special inquiries, from every State and nearly all the Territories. The average rate of wages per month of farm laborers in the Eastern States is computed at $33 30; in the Middle States at $30 07; in the Western States, at $28 91; in Oregon, at $35 75; in California at $45 71. In the Southern States wages are only $16 per month, these low rates resulting from the manumission of the slaves and the disinclination of employers to pay what labor is actually worth. The above are the rates without board. Throughout the Northern States there is an average reduction from these rates of $12 50 per month for board. The average rate in Oregon per month for the year with board is stated at $22 53—an estimate that is probably very nearly correct. In the Northern States west of Pennsylvania, farm labor with board commands about $16 per month. The advantage in favor of laborers in Oregon will appear more considerable than this difference when it is remembered that the pay here is in coin and that the pay elsewhere is in paper currency. There has been an increase of 70 per cent. in wages since 1835 and 50 per cent. since 1861. Yet the prices of other commodities have risen in a still more rapid proportion, so that there is now hardly so much purchasing power in a month's wages as there was, when wages were nominally lower. Still, a month's wages in this country will probably purchase more than in any other in the world. Such is the power of labor absorption possessed by the United States that the immigration of millions of foreigners has not materially reduced the rate of wages. It has opened wider fields of industry, without supplying the increased demand, either for skilled or unskilled labor.

Our farm laborers get about twice as much pay as the English laborers. Statistics also show that the paper dollar in the great agricultural sections of the United States will purchase much more food than will the gold dollar in England.

In the United States the greater part of the labor is done by farm proprietors. The hired labor is a small item compared with that performed by the farmer and his sons. It is estimated that there are about 900,000 farm laborers in the United States who work for hire, and that the number of farm proprietors, most of whom are also engaged in farm labor, is 2,500,000. For hired farm labor, supposing that each laborer works eleven months in the year, the sum of $277,200,000 is annually paid. Add to this the value of the labor performed by the farm proprietors, who are four times as numerous as the hired laborers, and the estimate of the agricultural labor annually performed in the United States is truly astonishing.

The rates of farm labor are enhanced by the facility of obtaining employment in other occupations. The truth of this observation is made manifest by the fact that in Massachusetts, which is a poor agricultural State, but which has an endless variety of industries, farm labor commands higher wages than in any other State except those on the Pacific coast. The paper from which these statistics are drawn strongly recommends a variety of industry as the true policy of all communities. This policy "furnishes all classes and capacities, young and old, male and female, with something to do, and with a motive for doing it, and thus labor in some form, becomes the rule, to which there are but few exceptions. Consumers and producers are at each others doors, or commingled in the same household, and carriers and go-betweens absorb but a small portion of the profits of industry. There is no glut of markets from excess of production, or [illegible] of transportation." A question is asked which the people of Oregon ought to consider: "Will States which are almost deserts from the suicidal policy of growing agricultural products for exportation, and importing everything, learn wisdom from poverty and grow prosperous and wealthy, with laboring classes comfortable and intelligent, and advancing in mental and moral culture?" We say this question ought to be considered in Oregon, because this State is suffering from want of a practical political economy. Variety of industry is the only road to prosperity, and communities must learn this principle and act upon it before they can become wealthy and great.

The President's Idea of Admitting "Loyal Members."

The annexed paragraph may be found in the message the President sent to Congress accompanying his veto of the Reconstruction Act:

> Each House is made the "judge of elections, returns, and qualifications of its own members," and may, "with the concurrence of two thirds, expel a member." Thus, as heretofore urged, in the admission of Senators and Representatives from any and all of the States, there can be no just ground of apprehension that persons who are disloyal will be clothed with the powers of legislation; for this could not happen when the Constitution and the laws are enforced by a vigilant and faithful Congress. When a Senator or Representative presents his certificate of election, he may at once be admitted or rejected; or, should there be any question as to his eligibility, his credentials may be referred for investigation to the appropriate committee. If admitted to a seat, it must be upon evidence satisfactory to the House of which he thus becomes a member, that he possesses the requisite constitutional and legal qualifications. If refused admission as a member for want of due allegiance to the Government, and returned to his constituents, they are admonished that none but persons loyal to the United States will be allowed a voice in the legislative councils of the nation, and the political power and moral influence of Congress are thus effectively exerted in the interests of loyalty to the Government and fidelity to the Union.

Consider for a moment the proposition embraced in this paragraph. The President cites the constitutional declaration that no State shall be deprived of its equal voice in the Senate, and that each State shall have at least one Representative; and then announces that Congress has a constitutional right, if it deems members disloyal, to exclude them on its own judgment, though they stand ready to take the oath to support the Constitution. Where does Congress obtain its right to exclude members in this way? It is not upon this ground that the members from the revolted States are kept out of Congress, but upon the ground that those States having destroyed their political organization, have not yet been empowered to send representatives to sit in that body. It is only by inquiring into the authority of States to elect, that Congress can exclude members in this wholesale manner. If States are subject to no disabilities,—if those which revolted lost none of their rights and powers,—if, in short, they can legally elect members, Congress cannot go behind the qualifications prescribed by the Constitution for their admission. But if the opposite view be the correct one,—if the States which rebelled subjected themselves to disabilities thereby (and this is the position Congress has taken) then Congress may go behind the forms of election, inquire into the authority of these communities to elect, and prescribe conditions for the admission of their representatives. To hold that the rebel States have the same right as the loyal to elect representatives, and then to say that Congress may exclude these representatives upon its own judgment for disloyalty, though they stand ready to take the oath to support the Constitution, gives that body a most dangerous power. It would empower it to turn out a majority of the Democratic members from the North, for they were quite as disloyal as those from the South who are now asking for admission.

NEW GOVERNOR FOR WASHINGTON TERRITORY.—The Vancouver *Register* states upon the authority of Judge Cummins of Idaho, that a private letter from Washington to Governor Ballard, gives information that Ward of Kentucky, a brother of Governor Marcus L. Ward of New Jersey, has been appointed and confirmed as Governor of Washington Territory *vice* Geo. E. Cole, rejected by the Senate. The new Governor is a radical Union man, which fact, however, was not known to the President when he made the appointment.

The rebel-Democratic ticket in Kentucky has been repudiated by a large portion of the people styling themselves "Conservative Union Democrats" and headed by Gov. Bramlette, Lieut. Gov. Jacobs, Judge Kinkead and a large number of other influential men. A State Convention was called to met at Louisville on the 11th of April. This places three tickets in the field of Kentucky, and may give the true Unionists a chance to win.

The States yet to hold elections for members of the Fortieth Congress are Kentucky, Tennessee, and California. The Kentucky election will be held on the 14th of May; that of Tennessee on the first Thursday in August and that of California on the first Tuesday in September. Kentucky will elect nine members, Tennessee eight, and California three.

STATE ITEMS.

We are informed that J. R. Robbins of the Dalles has had the contract awarded him for carrying the mail from the Dalles, *via* Canyon City to Boise City, Idaho. The service will be tri-weekly, and will be of great advantage to eastern Oregon and Idaho. The route follows a nearly direct line from the Dalles to Boise City, and will be much shorter than any hitherto in operation. The service will begin on the first of July.

The Jacksonville *Sentinel* of the 5th inst., says: On Thursday evening a row occurred among the squaws on Kanaka Flat, in which one Peggy was killed and one named Lilly was wounded. The facts, as brought out before the jury, are to the effect that Peggy and a friend, named Molly, went to the house of a Kanaka named Bottles, to get a shawl which was claimed by Lilly. Peggy got hold of the shawl and started for the door. Lilly seized one end of it and started the other way, at which Peggy drew a knife from her stocking leg and stabbed Lilly in the back. Lilly turned quickly, snatched the knife from Peggy and inflicted a stab under the left shoulder blade, which pierced the heart and killed her almost instantly.

Speaking of the newly discovered gold mines in Southern Oregon, the *Sentinel* says: The district appears to be in this (Jackson) county, in the mountains north of Rogue river, near the head waters of Jump-off-Jo. From the best information we can get, the creek passes through a basin or flat, near it, source. The mountains and hillsides are heavily timbered, and the basin is set with vine-maple and underbrush. The locality very much resembles Boise Basin—in miniature. Prospecting, thus far, has been limited to the creek and a few gulches, on account of the snow, which has varied in depth from six to two feet. It is believed, and so stated, by persons who have visited the district, that diggings that will pay from three to fifteen dollars per day to the hand, and afford employment for many of our industriously inclined citizens, have already been discovered. After the snow shall have disappeared, it is believed that the prospecting will be prosecuted to the successful development of much more extensive diggings. It shall be our object to obtain and place before our readers the most reliable successes and discoveries of this new camp. The miners have already held a miner's meeting, and passed mining laws, regulating the taking, holding and disposing of claims.

It seems probable that the project for the erection of a woolen factory in Southern Oregon will fail. A Jacksonville paper says: From Phoenix to the foot of the Siskiyou Mountain, the citizens have done well, having subscribed for $18,700 of the capital stock. From the former point to Rock Point, a district containing some of the wealthiest men in Jackson county, only $2,500 has been subscribed, and in the town of Jacksonville not a single dollar has been contributed, so we are informed. Scripturally speaking, there are none so deaf as those who won't hear, and we know of no argument that would loosen the purse strings of our townsmen, except the assurance that a factory should be located at this point. Their niggardliness in refusing to aid a project that would be an ultimate benefit to the county at large may, perhaps, induce the people of the upper end of the valley to use more strenuous efforts to accomplish their enterprise and will undoubtedly create a feeling of local jealousy, that will end in disadvantage to Jacksonville. The Ashland people will ultimately see the necessity of withholding tribute from those who refuse to reciprocate. There is yet $6,800 necessary to absorb all the capital stock, and we earnestly hope our Ashland neighbors will not abandon the cause until the amount is raised. Southern Oregon must, and will manufacture her own wool and the real question at issue is, whether a factory for that purpose is to be located in this, or Umpqua valley. We urge our townsmen to view the matter in this light and consider whether they do not prefer its location, eighteen rather than one hundred miles from this point.

Gentlemen about purchasing fine dress suits for Spring wear, will find the largest and best assortment at less price than any other store in Portland, at Wm. Currier & Co's, 103 Front street.

The subscriptions to the Astoria lot sale are so far taken that the distribution has been definitely fixed for Wednesday, the 15th day of May. Agents have been appointed in most of the towns, and H. B. Parker, Esq., is General Agent. The distribution will take place at the Court House, under the management of the County [illegible]. The price of a share is fifty dollars. Among the prizes is a homestead and three lots worth $5000, which is the one will get for $50. There are also three lots valued at $1000 each; six at $600; eight at $300; thirty-four at $200; fifty-one at $150; two hundred at $100, and one hundred and twenty-four shares consist of two lots each; twenty-two of four lots, and twenty-one of six lots each, and about one-third of the shares are lots worth from $100 down to $50. No ticket will draw less than a $50 lot. The purchase money is payable on delivery of a warrantee deed for the lots drawn; but special arrangements can be made by addressing the proprietor, O. Olney, at Astoria.

MR. A. F. Brattle, Machinist, 1230 Cass street, Philadelphia, states that he prefers the Grover & Baker Machine to all others, for either domestic use or manufacturing purposes, on account of its simplicity of construction, ease of management, beauty and elasticity of stitch. W. Currier & Co., agents, 103 Front street, Portland.

PERFECTLY SATISFIED.—Every one that visits BUCHTEL'S PHOTOGRAPH GALLERY, comes away perfectly satisfied with their bargains. The highest style of the art is reached in the beautiful Sun Pearls and Photographs.

KOHN & FISHEL at the ST. LOUIS STORE, No. 111 Front street, are now selling Best White Shirts for $2; good under shirts and drawers, which formerly sold for $2 and $2 50, for $1 and $1 50; fine business coats $8 to $12; stylish and most durable Cassimere suits such as were retailed for $30 and $35 for $13 to $25; splendid Cassimere pants for $5 00. The latest styles of dress and Beaver suits, and all other kinds of suits and everything for Gents wear at equally low prices. After examining Kohn & Fishel's stock and prices, the most stubborn must be convinced that they are entitled to the greatest portion of the trade.

Complimentary Benefit to
MR. THOMAS WARD,
SATURDAY EVENING, APRIL 13, 1867.

PORTLAND, Oregon March 27, 1867.

Mr. Thomas Ward—*Dear Sir:* In consideration of your public services, and in requital of your endeavors to obtain a foothold for the Drama in our City, we beg to tender to you a Complimentary Benefit, which we will strive to render profitable to you and creditable to ourselves. It is exactly three years since your first professional appearance here, when you placed before our public one of the most talented Companies that ever visited Oregon, consisting of Mrs. Leighton, Miss Fanny Morgan, Edith Mitchell, Virginia Howard, Belle Douglas, Mrs. Leslie, Mr. James H. Taylor, Messrs. Myers, Hamilton, Phelps, Potter, Bernard, Leslie, Graham, Sinclair, and several others, at which time your efforts were attended with heavy pecuniary loss. Your Company last season, though inferior to former selections, was perfect in the female department, as evidenced by the recent appearance as Stars in the City and State of New York, of your two principal actresses, Fanny Morgan Phelps and Mrs. McDonald. Our approval of your professional endeavors, added to the character you have ever borne among us as a man of honor and integrity, induce us to tender you a Complimentary Benefit, to take place as soon as proper arrangements can be completed; and in addition to other entertainments we hope you will be enabled to present a Dramatic Performance on the occasion, and yourself appear in one of your prominent characters.

We remain, dear Sir,
Yours sincerely,

PORTLAND, Oregon, April 8, 1867.—Messrs. Ladd, Briggs, Leonard, Russell, Arrigoni, &c.:

Gentlemen: Extreme illness and inability to hold a pen, has occasioned the delay in replying to your esteemed favor of 27th ult. In now addressing you I thank you very cordially for your kindness and consideration in tendering me a Complimentary Benefit, and beg to state that the best Dramatic Performance that can, under existing circumstances be presented, with other light and attractive entertainments, shall be provided, and on the occasion, it will afford me much pleasure to appear professionally before you. The general feeling being in favor the Benefit you tender taking place at Oro Fino Hall, allow me to state that it will be given there on Saturday next, 13th instant. Had I personally succeeded in establishing the Drama permanently in Portland, the Public should have had no reason to complain of the talent it would have been my duty and pleasure to have placed before them; failing myself to attain that object, I corresponded, for some time, with Mr. Maguire, of San Francisco, upon the subject, and although I shall not be here to see it, I am in hopes he will yet present himself as Theatrical Manager and Lessee, very soon after his return from New York, where he is now striving to engage, for the Pacific Coast, the highest Star and Stock Talent obtainable. Permit me to add, throughout sickness and difficulty I have endeavored to merit public esteem, and feel deeply gratified at your deeming my professional and private conduct worthy your notice and approval.

I remain, Gentlemen, yours very respectfully,
THOMAS WARD.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES
Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.
Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.
One-eighth of one per cent. (bar & one-quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.
Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.
On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.
This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for melting fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY-EIGHT HOURS.
Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.
Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates.
Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

CHARGES AT U. S. BRANCH MINT.
For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution:
For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300½@600 parts gold, 5 cents per ounce.
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@880 parts gold, 11 cents per ounce.
For refining bullion from 880½@949½ parts gold, 14 cents per ounce.
The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:
850 par to equal Mint return, at refining charge of 14 cents.
840 par to equal Mint return, at refining charge of 14 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. mh1d2p3m

The public [illegible] invited to attend......Concerning the [illegible] the Register gives the following particulars, [illegible] to those already published in the OREGONIAN: [illegible] Brady and Sheriff Morse were astir before [illegible] Monday morning. An unwonted activity characterized all their movements, which gave rise to the belief that they were in [illegible] of some important clue, [illegible] knowledge, of the perpetrators of the only [illegible]. The information, as subsequently discovered, was [illegible] and the officers displayed excellent tact in not [illegible] as is so frequently imprudently done [illegible] the Marshal and Sheriff, full mounted [illegible] started up the river and were gone till [illegible]. They brought the fugitive with them. He [illegible] except the up river boat at Fisher's [illegible] was obliged to perform the journey on foot to [illegible] across which he got wet through. [illegible] however, he made his way to the [illegible] where he borrowed some clothes [illegible] were drying, and in this position [illegible] arrested. He had a revolver which [illegible] stolen at the property of J. B. Brouillette [illegible] the St. Charles saloon some two weeks [illegible] of the individual is Martin, a soldier [illegible] Cavalry, and is supposed to have [illegible] all those daring robberies which [illegible] to this community during the past winter. The first Lodge of Good Templars [illegible] was instituted by G. B. Taylor, May [illegible] preliminary meeting to organize a Grand [illegible], October 8th, 1865. Seventeen [illegible] membership than consisted of [illegible]. On the 8th day of May, 1866, the Grand [illegible] and Washington Territory was organized, with 31 subordinate Lodges and 1500 members. The second session of the Grand Lodge was held [illegible] 4th, 1866, with 48 subordinate [illegible] membership of 2200. The successful work [illegible] of the Order in this State is without a parallel. [illegible] Mr. Payne has resided in this State about [illegible]. Soon after his arrival he assisted in instituting the first Lodge in this city. The performances will conclude with the beautiful drama of "The Soldier, the Maid of the Inn," characters by Messrs. [illegible] Watson and Miss Rose. Mr. Ward [illegible] benefit, and we hope he may get [illegible]

The [illegible] will be examined this morning before justice [illegible] on the charge of larceny.

[illegible]—Notwithstanding the universally dull [illegible], Mensalorffer is still receiving large [illegible] of new styles. He now has such [illegible] that he can sell his goods fully [illegible] per cent. lower than the same styles, for the [illegible] five or six months. Among the cheap and desirable [illegible] received, is the St. Cloud hat.

[illegible]—The Register says: Lieut. [illegible] lately commanding Fort Walla Walla, [illegible] was put on trial last week for several offenses [illegible] him, was honorably acquitted by the [illegible] convened for his trial. PERRY DAVIS' VEGETABLE PAIN KILLER.

THE GREAT FAMILY MEDICINE OF THE AGE!

Pain Killer taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a cough, a few drops on sugar eaten will be more effective than anything else. For sore throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use. Dyspepsia can be and is cured every day by the use of Perry Davis' Pain Killer. This is the most wonderful and valuable medicine ever known for this d[illegible] Its action upon the system is entirely different from any other preparation known. TAKE NO MORE UNPLEASANT AND UNSAFE REMEDIES for unpleasant and dangerous diseases. Use HELMBOLD'S EXTRACT BUCHU AND IMPROVED ROSE WASH.

Bronchitis or Chronic Sore Throat.—It is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. The irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood. If it is neglected it will extend down to the lungs, and settles into confirmed consumption. ALLEN'S LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into the consumption. For sale by dealers in family medicine generally. ta20

DRAKE'S PLANTATION BITTERS

Have been of great service in making people healthy, and keeping them so. They should be found in every household.

They give tone to the Stomach, vigor to the body, and remove dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.

There is nothing better to take "for the Stomach sake" than the PLANTATION BITTERS.

They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains, with magical power.

A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel

WELL, STRONG AND HEARTY.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They are the best Bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find immediate and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic.
J. W. HEWITT,
Foreman American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1858. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man or beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "Lyon's" PURE EXTRACT. Take no other.

CAUTION—See that the private U. S. Stamp of Demas, Barnes & Co. is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but strictly harmless to the human species and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS, BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

The University HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE-NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street, lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon.

The Rev. E. Thomas, D. D.,

Is President of the Association; Lester L. Robinson formerly Vice President of the Sacramento Railroad Company, is the Treasurer, and Thomas B. Lewis, formerly of Portland, Secretary.

Four lots, 25x120 feet each, constitute a share, costing $315—paid in monthly installments of $10 each; after the first payment of $10 has been made.

Maps and books giving full information of the workings of the Association can be obtained at the store of J. L. PARRISH & CO.

It is an easy and a cheap way for young men to procure property which will in a few years make them independent.

NASBY.

NASBY IS DISPATCHED BY THE PRESIDENT AND SECRETARY SEWARD UPON AN IMPORTANT MISSION, SIMILAR IN ITS NATURE TO THAT OF M'CRACKEN—HIS REPORT.

POST OFFIS, CONFEDERIT X ROADS,
(Wich is the Stait of Kentucky,)
February 11, 1867.

It wuz a crooel necessity, and all that, which druv me into the servis uv his Excelency, A. Johnson. Crooel, I say, for whenever he hez a particlerly mean piece uv work to perform, suthin so inexpressibly sneakin that Seward nor Randall woodn't undertake it, they allus send for me. Wells is allus willin, but while he hez the disposition to do anythin in the line, he lacks the ability. The others, however, hev the ability to do anythin, and disposition to do most things, and therefore I hev bin employed in only the extreme cases.

The success wich attended McCracken's mission, enden ez it did in the realm of Motley, stimulated Seward to prosecute similar researches into the actooal opinions uv the home crop uv offisers regardin him and his and my superior, A. Johnson. Randall wuz applied to take a tour among the Postmasters and sich. He declined the mission indignantly, with the remark, "Is thy servant a dog or the son uv a dog, that he shood do this thing?" And ez Wells isn't trusted out uv Washington any more, I was sent for.

The biznis required uv me wuz statid by Seward in his yooshal lucid style. It wuz merely to circulate incognito (wich is Latin for sneakin) among the resently appointed offisholders and assertain their views on the genral politikle topicks, but more espeshally their feelins toward the President and Sekretary uv State. Jest, ez I wuz startin, not at all pleased with the mission, Wells put in his oar. He wuz goin to giv me instructions ez to wat I wuz to do. Wells is a lunatik, I never cood abide, and I felt it my dooty to wither him. Transfixin the venrable Sekretary with one uv my most piercinest gazes, I remarkt: "Sir I in imitachen uv the man who inflicted yu upon this country, wich wuz not the least uv the acts for wich the country curses him, I propose relatin a little anecdote. Ther was onst a man who wuz inebriated, and that he might present hisself in a state approximating sobriety to the pardner uv his buzzum, he wuz essayin to vomit, tryin thus to ease his stumick uv the cause uv the unpleasantnis therein, but he coodn't do it. He heaved and heaved, but ther wuz no result. At this critikle period another man approached, who remarkt kindly that if he desired to vomit, his best holt wood be to run his finger down his throat. The drunk individual lookt up indignant at this unwarranted interference with his constitooshenal rites. 'Blast yoor eyes, sir,' said he, 'are you or me bossin this yer puke?'"

"This, Sekretary Welles, is the anecdote. I respeck the posishun you hold, and dislike sayin anything disagreeable; but, sir, this is a puke, and I perpose to boss it myself."

I startid to wunst, and found things in a highly mixed condition. The following is compiled from my reports: In Noo York the postmasters are generally sound. The crops were poor last year, and all kinds of biznis bein dull the postmasters are generally anxious to hold on. They are, therefore, outspoken in the cos. Them ez wuz men uv good standing and religiously inclined before the rupcher between the President and the party which redoosed him, say but little in public, and that little they don't say very long. They generally can't see that ther is any pertickeler difference between the President's plan and the plan uv Congris, and ther bein so little, Congris ought to yield for the sake uv peace. The Dimocrats holdin sich places are loud enough in support uv the Administrashen, but good Heaven! the indorsement uv sich men is too heavy a load for any party to carry. Now, that I think uv it, I hev at last solved the mystery uv our wide spread defeat last fall. In some Destricks the Dimocrisy found Johnson too heavy a load to carry, and in the balance the Johnson men found the Dimocrisy too heavy a load to carry.

In Ohio the first place I stopped at wuz Oberlin, the place where the bigger college is located at. I regret to say that the postmaster at that pint is a rantin Ablishnist, and in the two hours I was there I coodent find a Conservative Republikin who would take it. I got one nearly perswaded, but jist ez he wuz about to consent, his wife fell a weepin onto his buzzum, and with techin pathos wanted to know of he wuz willin, for sich small pay, to leave sich a tarnisht name to the four children now born to em and the wun wich wuz expectid. He relented and refused. I didn't investigate ez fully ez I might, for ther aint a drop uv likker sold ther, and ez my flask give out, I felt that due considerashun for my health woodent permit my stayin another hour. I recommend the abolishun uv the offis, or the establishment uv a grocery, with a bar in the back room, ez a nucleus around wich the Dimocrisy kin rally.

The next place I come to I found the Postmaster a suspishus karackter—very suspishus. Whenever he is drunk he speaks very high uv the Sekretary uv Stait, but when sober he avoids politikle matters. I suggest a raise in the salary uv the offis, that he kin afford tu keep drunk all the time.

At the next pint I interdoost myself ez a English nobleman in disgise, studyin Amerikin manners and custums, and mentioned carelessly that I hed been to Washington and hed been presented tu the President and Sekretary uv Stait. The Postmaster wuz visibly affeckted. Glancin furtively around to see that no one wuz lookin, he remarkt in a low tone: "My dear sir, don't, I beg of you, form your idea of publick of Amerika by them speshmens. Don't, I beg. The first is a axident. The second wuz suthin in his earlier days, but now, sir, now—he's a degraded old man," and he bustid into tears. "Bein determined to hold onto his place he tried to bring the President by axident, up to his level; but that bein impossible, he deliberately let hisself down to the level uv the President, and the distance, sir, wuz so grate, the sekretary bein suthin, that the shock, undoubtedly knockt the intellek out uv him, for he ain't displayed any since. He litterally fell among theeves. May the Lord forgive Willyum H. Seward for the shipwreck he made uv his repetashen, for——"

At this pint the poor man stopt. I happened to pull out my handkerchief and in doin so dropt upon the floor a piece uv paper wich he seed and read:

PETROLEUM V. NASBY, Dr.

To G. Baskum.

To drinks durin the month uv January, at [illegible] cents per drink $30 00

He lookt at my fase, and seein that that bill realy b'longed to me, he fell faintin onto the floor, shreekin, "I'm McCrackened."

I leave the case in the hands uv the Cabinet. Its agravatin.

Another man openly dedied me. He wanted me to take the offis off uv his hands. His children, he sed, wuz made mouths at, and skoffed at, at skool, becos their father, wich hed bin a Republikin, held a Federal offis, and his wife was defeated for President uv the Sewin Society, a posishun she hed allus held, on the same akkount. He hed stood it long enuff. Ef he coodent git it off his hands he'd commit suicide, and by thus puttin hisself out uv the way, make his abused family the only reparashun in his power. I sejest that he be removed. Sich talk may be safely set down as incendiary.

Another hed the highest possible opinion uv the President, and worshipped the Secretary. He considered his plan uv reconstruction the best wich cood hev been devised by mortal wisdom. He hed vainly strivea to git a nomination for an offis from the Republican party for years, but failed, owin to a lack uv confidence. He wood hev jined the Dimocrisy, but ez they wuz hopelessly in the minority, it woodent hev helped him. He considered Johnson's moshun, fillin the offices with Republikins, fully, there bein so few uv that persuasion who'd take em, and he didn't want any accessions to the party. There wuz now jest enuff to hold the offises in the control uv the President, and them wuz all the offices they could git, anyhow. I seject that he be continued. He isnt discreet, but we can't expect all the virchoos at so small a price. None uv us is perfeck—I spoze I hev my failins.

I shel continyoo my investigashens, tho it is dredful trying labor. Going ez I do thru Abolishn seckshens, I hev to carry my own whisky, and ez sad experience hez demonstrated quart flasks won't do. Sometimes I hev to lay in one uv them towns for three hours. I respectfully submit that arrangements be made for the transportation uv a keg uv sustenance to accompany me, otherwise I shel peremptorily resign. At any time uv life reguler supplies is necessary.

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M.,
April 12, 1867.

The latest quotations of gold in New York is under date April 9th, when it closed at 134½. There is no change in the San Francisco price of legal tenders—74½ buying, and 75 selling.

The buoyancy of the flour market at San Francisco and at New York has had the effect to keep prices here steady at former figures, notwithstanding the advance in freight Dayton extra superfine is the only brand in which we find a decline. We quote, $5—twenty-five cents lower. The only other changes in jobbing prices which we have to note, are P. & M. yeast powders, $32—$1 50 lower; mackerel in hf bbls, $13 50—$1 50 lower; and do. in kits, $3 50—twenty-five cents lower. All other prices in the jobbing list are unchanged. Business is exceedingly dull, being confined almost exclusively to the local trade. It has become the pretty general conviction that trade with the upper Columbia country and Eastern Oregon, will not amount to anything worth mention before May or perhaps June. The stocks laid in at San Francisco while low freights ruled, must become exhausted before that country will again purchase of Portland. When that occurs, the jobbers here can offer greater inducements for spring stocks than can San Francisco, because there are very full stocks here upon which only small freights were paid, while all purchasers below must hereafter pay the advanced freight. In this respect the high freights now ruling will prove of temporary advantage, at least, to Portland.

The *Continental* took only a few hundred sacks of flour and a little over 2,000 boxes apples. The latter found the market more buoyant and firm than it had been for three weeks. The *Ajax* will sail to-morrow with a fair freight, among which will be more than an average amount of flour.

Weekly Retail Family Market.

PORTLAND, April 12, 1867.

Business is moderate. Apples are dull sale, although the supply is limited. Dried fruits are doing better, with a moderate demand. In groceries, there is an advance in sugars. In provisions, the stock of hams, bacon, shoulders, butter and eggs, is large, with light sales; prices are depressed. Eggs are lower this season, than known during the last six years. No margin for shipment to California at present. Poultry is lower, and supplies are arriving freely. Game is not sought for much, being now out of season. That in market sells high. Vegetables are scarce and high. Supplies from California, such as cauliflower, celery, asparagus and cabbage, look well, and prices moderate, considering the season and expense of transportation.

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

☞ Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

Portland, Oregon.

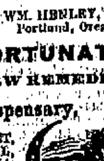
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and effective mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.
